### "CHAMP CLARK'S BLUNDER."

**St. Louis Republic, Long Sponsor for  
Speaker, Attacks His Stand  
for Annexation.**

St. Louis, Nov. 6.—Under the caption, "Champ Clark's Blunder," the Republic, which has always championed Clark, in an editorial today says:

"It must be that Champ Clark's presidential ambitions are lightly held or he would not persist in his advocacy of the annexation of Canada."

"These do not appear to have been hasty or thoughtless remarks. They were vehement as well as boastful. They separate him in a way from the great achievements of his party at the extra session. They raise a new and an alarming issue and his nomination for the presidency would instantly make it acute and dangerous. He says he could carry every state on that proposition. He could not carry Missouri as the advocate of such a program."

"If it were possible to commit a great party or a section of a great party to the idea of annexing Canada the movement would be regarded not only in the Dominion, but throughout the British empire, as contemplating war. One nation does not annex another except by force of arms."

"There is no possibility of the Democratic party accepting a platform of this kind. We deplore it even more keenly because, owing to his exalted position in the party and in the government, it cannot fail to be used to the disadvantage of Democrats everywhere."

### Normal Lecture Course.

The second number of the Normal lecture course will be given next Wednesday night, Nov. 8. Dr. James Headley will give his lecture, "In Friendship's Name." Dr. Headley is one of the most entertaining speakers on the lecture platform, and his lecture here should be heard by a large audience. Tickets, single admission, 35c; season ticket to remaining numbers, 85c. The tickets to this course should be sold ordinarily for a higher price, but the object is to furnish to the students and others interested a first class course of entertainments at lowest possible price. Come out and hear this lecture.

### Good, Better, Best.

I have in mind the three best places in Nodaway county to prospect for oil. The first best, in my judgment, is the Albert Carr farm. Many years ago when I owned the farm I went to where Carr now speaks of, on the middle eighty acres, and greased my shoes. The second is on the east end of the Fred P. Robinson farm. The third, near the old Morehouse farm, north of Barnard. I have gone out many times, all alone, to prospect, and the above three places were well fixed, in my mind. I have not yet met Mr. Wallace, the oil man, but I am glad he is here and getting so many interested. Now, you good people of Nodaway county, I don't want you to imagine that I am paid for this. I am not. Neither of the parties know anything about this writing.

Yours truly,  
A. C. GANN.

### ANNUAL POULTRY SHOW.

To Be Held in Maryville From December 13 to 16.

The annual poultry show will be held in Maryville this year on December 13 to 16. Judge J. H. Saylor, who is secretary of the association, said Monday that more interest is being taken in this show than ever before, and already more exhibitors have filed entries than at any past show. The catalogues for the show with the premiums will be printed soon. Maryville has had some good poultry shows, but the one this year promises to excel them all.

### PILES CURED IN 6 TO 14 DAYS.

Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days. 50c.

### CAN'T CURE CATARRH.

Stomach Dosing, Sprays and Douches Have All Failed.

There is only one way to cure catarrh.

Reach the raw, tender, inflamed membrane that is infested with catarrh germs, and destroy the germs. You can't reach the nooks and crevices with liquid preparations—there is only one way—breathe the antiseptic germ killing air of Hyomei (pronounce it High-o-Mei) directly over the infested parts.

Hyomei contains no opium, cocaine or other harmful drugs, it is made of Australian eucalyptus, thymol and listerian antiseptics. It is guaranteed to end the misery of catarrh, asthma, croup and bronchitis, or money back.

Ask the Orear-Henry Drug Co. about the Hyomei outfit today. They sell it for only \$1.00 and guarantee it.

### ATTRACTIVE EXHIBITS.

Three at the Teachers' Meeting Were of Unusual Attraction.

Three exhibits made by the schools of the county at the educational meeting held at the Normal Thursday, Friday and Saturday were of unusual attraction to those who visited the meeting.

One was a log cabin, fashioned from thirty-six varieties of wood by the pupils of Swinford school, taught by Dwight Swinford. The wood was secured from the woods in the neighborhood of the school house.

Another was a corn cabin, made to represent a log cabin, that was the work of the pupils of North Prairie school, taught by Miss Anna Cabene. The corn was placed over a wooden frame in the shape of logs.

The third exhibit was a duplicate of the high school building at Pickering, made by the manual training pupils of that school. Each was a work of art and a credit to those whose work it was.

## POISON FIEND TRIES SUICIDE

Doctors Discovered She Was Slowly Preparing to Cheat Law.

### USED "WHITE PEPPER" ON EGGS

City Chemist Finds Condiment Mixed With Arsenic—Guards Doubled and Everything Is Very Closely Examined.

Chicago, Nov. 6.—The cunning attempt of Mrs. Louise Vermilya to take her own life by seasoning her food with arsenic probably has been frustrated. Physicians attending the woman who is accused of causing the death of Arthur Bissonette, a police officer, by poison and who is under investigation for the deaths of eight other persons, said they believed she will recover. Under the eyes of the police sent to her home to guard her, she has been slowly poisoning herself. When eggs were served her she complained she did not like black pepper and asked that a box of white pepper be brought her from a shelf in the pantry.

The nurse, by the odor of the light colored substance in the box, determined it was pepper and allowed Mrs. Vermilya to have some of it. Soon Mrs. Vermilya became very ill.

The "pepper" was taken to a druggist and he told the police he believed the condiment was mixed with an arsenical rat poison. The remainder of the compound was sent to a city chemist, who confirmed the report of the druggist.

A guard of detectives and uniformed policemen with a police matron and several trained nurses are watching over Mrs. Vermilya night and day. The watchers relieve each other at intervals to prevent fatigue, causing a lapse of vigilance. The bed and bedding, her sleeping garments and her hair have been examined for concealed poison.

Captain Harding, after questioning Mrs. Vermilya, said:

"Mrs. Vermilya talked freely. She said she had bought some roach powder and had put it in a talcum powder box. She said she had three talcum boxes in her pantry. In one was black pepper, in another white pepper and in the third the roach powder. We have been able to find only two such boxes."

"I told her the chemists had found arsenic in the box and not roach powder, but she could not account for this. I attach no importance to her denials and am satisfied there were but two boxes in the house, one containing arsenic."

Portions of the body of the conductor, Richard T. Smith, who died at Mrs. Vermilya's home last March, have just reached here from North Henderson, Ill., where they were exhumed, by Dr. E. H. LeCount. He will examine them for traces of arsenic.

### Worker For Wets Disappears.

Topeka, Nov. 6.—Kansas resubmissionists are alarmed over the disappearance of Edwin Hinkle, national organizer of the Manufacturers' and Business Men's association, the organization that is trying to make Kansas wet. Hinkle has closed his office in Topeka. Members of the branch won't say whether he is still at work or has gone. The telephone has been disconnected at the office.

### Killed Dragging a Shotgun.

Chickasha, Ok., Nov. 6.—Fred Pope, 18 years old, the son of J. M. Pope, a real estate dealer, died here from the effects of a gunshot wound received when he attempted to drag a gun through a wire fence while hunting.

Mrs. J. P. Norris and son, Arthur, went to Barnard Saturday evening to visit over Sunday with Mrs. Norris' daughter, Mrs. Charles Dane. Mr. Norris went to Barnard Sunday morning.

## GERMANY OFFENDS DENMARK

FLEET MANEUVERS IN DANISH WATERS CAUSE DAMAGE.

Germans Charged With Obtaining too Much Information—English Authorities Watching.

Copenhagen, Nov. 6.—Public irritation in Denmark and Norway continues to grow over the maneuvers of the German fleet in Scandinavian waters.

This feeling has been increased rather than allayed by the publication of government inspired articles explaining the maneuvers in the Danish Berlingske Tidende and the Norwegian Morgenbladet.

The people refuse to accept the assurance that the Baltic Belts are used only as the natural through passage for the German warships.

The visits of the German fleets have been made frequently without the formality of notifying Denmark and Norway.

Exercises have taken place in all Danish waters and at night they have been held without shaded lanterns or without any lights. This has resulted in considerable damage and the compensation paid has not proven adequate.

This constant turmoil in Danish waters has excited much adverse comment from the public and it firmly believes that the exercises are being held in preparation for actual war. It is charged that the Germans have obtained as much information in regard to Danish waters as is possessed by the naval department of Denmark.

English authorities are maintaining the closest scrutiny over the movements of German naval vessels in Scandinavian waters and it is said that all of the British consulates have received instructions to report promptly the arrival and movements of all German warships.

### TO RESIST AMERICANS' CLAIMS

Mexico Will Pay But Little for Property Losses Incurred During Recent Disturbance.

Washington, Nov. 6.—Americans who suffered property loss at the hands of the Mexican revolutionists in the recent disturbance in the country have very little chance of receiving damages, according to the view of legal experts who point out the questions of international law involved.

It is regarded as practically certain that Mexico will, when claims are presented for action, raise as a bar to Americans the ruling laid down by United States courts of claims, following both the civil war and the Spanish-American war.

This point is to the effect that a parent government is not liable for the acts of insurrectionists toward foreigners or their property, after the date upon which the insurrection has passed beyond the control of that government. By making this ruling United States courts at once disqualified the great majority of civil war and Spanish war claims. Since it is a ruling behind which the United States has sought shelter, it is not believed American claimants readily will find an answer to it.

Mrs. T. D. Kelley of Tarkio, who has been the guest of her daughter, Mrs. Eugene Rathbun, left Monday morning for visits at St. Joseph and Maysville before returning home.

Miss Maggie Broyles, living west of Maryville, went to Hopkins Saturday to visit the family of G. B. Ulmer and other relatives.

Miss Ella Criss and her two grandchildren, Ora and Carrie Stockton, went to Creston, Ia., Saturday to visit relatives.

Cecil Goforth of Bolckow was a guest over Sunday at the home of his brother, W. E. Goforth, and family.

Mrs. Roland Wray and little daughter of Pickering were in Maryville shopping Saturday evening.

## DON'T PULL OUT THE GRAY HAIRS

A Few Applications of a Simple Remedy Will Bring Back the Natural Color.

"Pull out one gray hair and a dozen will take its place" is an old saying, which is, to a great extent, true, if no steps are taken to stop the cause. When gray hairs appear it is a sign that nature needs assistance. It is nature's call for help. Gray hair, dull, lifeless hair, or hair that is falling out, is not necessarily a sign of advancing age, for there are thousands of elderly people with perfect heads of hair without a single streak of gray.

When gray hairs come, or when the hair seems to be lifeless or dead, some good, reliable hair restoring treatment should be resorted to at once. Specialists say that one of the best preparations to use is the old-fashioned "sage tea" which our grandparents used. The best preparation of this kind is Wyeth's Sage and Sulphur Hair Remedy, a preparation of domestic sage and sulphur, scientifically compounded with later discovered hair tonics and stimulants, the whole mixture being carefully balanced and tested by experts.

Wyeth's Sage and Sulphur is clean and wholesome and perfectly harmless. It refreshes dry, parched hair, removes dandruff and gradually restores faded or gray hair to its natural color.

Don't delay another minute. Start using Wyeth's Sage and Sulphur at once and see what a difference a few days' treatment will make in your hair.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special agents, Koch Pharmacy.

## TAPPING LAKE OF GENEVA

Project by Which Water May Be Brought to Paris by 300-Mile Canal.

New York is not the only great city that is troubled by the problem of a water supply. Paris has so nearly reached the limit of its convenient supply that it has revived the project of drawing upon the water of Lake Geneva.

This lake is in Switzerland, in the minds of most persons, but most of the southern shore is French territory, and although the control of the level by the barrage at Geneva is Switzerland's by treaty, still France claims it has rights that would allow it to lower the level by four inches during the dry season, which is all that is contemplated under the present plan.

The proposed canal would be over three hundred miles long, including many tunnels and the crossing of four large rivers, and would cost about \$100,000,000. It has not advanced beyond the stage of discussion, but the need of Paris is so pressing that it may yet be realized.

## RUN DOWN AN ARMADILLO

Animal Killed by Dogs in Virginia Proves to Be Soldier's Pet.

While hunting in the Virginia woods, near Bailey's crossroads, in Alexandria county, a few nights ago, a pack of dogs belonging to John Monroe and a colored man named Mortimer Wiggins ran down and killed an animal believed to be an armadillo.

The dogs were after opossums and coons, but getting on the scent of the animal, followed it for an hour or more before they landed their quarry.

Later it was learned that the armadillo belonged to one of the troops of cavalry at Fort Myer. The men had secured a number of the animals while on duty on the Texas border and had brought them to the fort.

The one that was killed had escaped and the men had been hunting the woods for it for several days, when they learned that it had been killed. This is possibly the only armadillo hunt that ever took place in the vicinity of Washington.

## Protecting Wild Animals.

An important amendment to the game laws which goes into effect this year is that prohibiting the sale of game at any time. While this will have no effect on the average hunter, it will put an end to a practice which has had much to do with decreasing the supply of wild animals and birds in this state. The slaughter of game in order to supply the markets has in the past done much to aid in the extinction of our wild animals and birds, and the elimination of this type of hunter will be most beneficial.

Each year the game laws are being more strictly enforced, and the protectors have obtained a large number of convictions. The officials are no longer ready to overlook violations of the law, but are making every effort to put a stop to illegal hunting. And in this work they have the moral support of all good citizens of the state.—Schenectady Gazette.

## Houseboats to Let.

The cult of the houseboat has never made much progress in this country, for a number of reasons, the chief of which is perhaps the liking of Americans for speed. Besides, we are a gregarious people, and hotels with their crowds attract most of those who have not the time or money for elaborate country places.

But in England and Germany these quiet summer floating houses are increasing in popularity, and a Berlin company has this year gone into the business on a large scale of building houseboats to let.

They are built on one pattern, the main feature of them being a roof veranda, to serve as dining and living-room. Perhaps we may some time appreciate their advantages, and our rivers may present as attractive an appearance as does the Thames.

## Woman University Professor.

The first lady university professor in Germany has just been created in the person of Mlle. Gertrude Jeanne Wockler, Ph. D. of Berne university, who has been appointed assistant professor of physics at Leipzig university. It is true that a year ago Countess von der Linden, privat docent at Bonn university, also received the title of professor, but the Prussian authorities opposed her nomination to the chair of assistant professor of zoology. Mlle. Wockler, who has been more successful, is a Swiss, thirty-three years of age, and will be the youngest professor in the only Saxon university. She has for several years taken a very active part in the feminine emancipation movement.

D. C. McKee and Lawrence Skidmore of Guilford were in Maryville Monday.

## Changed Her Mind.

A young couple had been courting for several years and the young man seemed to be in no hurry to marry. Finally, one day, he said:

"Sal, I canna marry thee."  
"How's that?" asked she.  
"I've changed my mind," said he.  
"Well, I'll tell thee what we'll do," said she. "If folks know that it's thee as has given me up I shanna be able to get another chap; but if they thing I've given thee up I can get all I want. So we'll have banns published and when the wedding day comes the parson will say to thee, 'Wilt thou have this woman for thy wedded wife?' and thou must say, 'I will.' And when he says to me, 'Wilt thou have this man to be thy wedded husband?' I shall say, 'I winna.'"

The day came, and when the minister asked the important question the man answered, "I will."

Then the parson said to the woman: "Wilt thou have this man to be thy wedded husband?" and she said:

"I will."  
"Why," said the young man furiously, "you said you would say 'I winna.'"

"I know that," said the young woman, "but I've changed my mind since."—National Monthly.

## A Nautical Christening.

Some years ago a slow sailing vessel, when some 600 miles from Liverpool, picked up a lusty youngster of five years lashed to a mast.

The captain took a great liking to him, called him his son and decided that the little chap must be christened—one of the few things which he knew must be attended to in the case of children.

Of course there was no chaplain aboard, so the captain himself undertook the ceremony. He gathered the men about him, and with a mixed knowledge of his duties, he glared about him and asked whether any one knew just cause why the boy should not be christened.

"If there is," he roared, "speak up like a man or forever hold your tongue."

Then he suddenly cracked a bottle of wine over his head and christened him.

The ocean wail is now settled down—a steady longshoreman, but he still relates with satisfaction the story of his christening.

Mrs. Anna Andrews and Miss Fannie Andrews went to St. Joseph Saturday evening to visit friends a few days.

Dale V. Alderman of St. Joseph spent Sunday in Maryville with his parents, Judge and Mrs. I. K. Alderman.

## WHY SO WEAK?

**Kidney Troubles May Be Sapping Your Life Away—Maryville People Have Learned This Fact.**

When a healthy man or woman begins to run down without apparent cause, becomes weak, languid, depressed, suffers backache, headache, dizzy spells and urinary disorders, kidney weakness may be the cause of it all. Keep the kidneys well and they will keep you well. Doan's Kidney Pills cure sick kidneys and keep them well. Can Maryville readers demand further proof than the following statement:

Mrs. W. M. Newman, Chestnut street, Savannah, Mo., says: "Doan's Kidney Pills have been of more benefit to me than any other kidney remedy I have ever used, and in view of this fact, I willingly recommend them. I was caused much suffering by pains in my shoulders, and mornings on arising I felt tired and languid. I was also bothered by the kidney secretions. Hearing Doan's Kidney Pills highly spoken of, I procured a box, and soon after beginning their use I was relieved. Another member of my family has also taken this remedy with satisfactory results."

## SOLVES AN OLD MURDER MYSTERY

Wife's Devotion Helps Locate Man Supposed to be Dead.

HER HUSBAND PROVEN INNOCENT

After Serving Eight Years for Crime is Pardoned and Joins Search for Alleged Victim.

Oklahoma City, Ok., Nov. 6.—Eleven years of searching, in which time Mrs. William M. Yoder never for a moment believed her husband guilty of the brutal murder for which he was condemned to life imprisonment, has just been ended by the finding of A. J. Eick, the man supposed to have been murdered.

Yoder and Thomas Curtis were convicted in 1901 of having murdered Eick the previous year and thrown his body in the Canadian river. A horribly mutilated body identified as that of Eick was found wrapped up in an old carpet. The head, which was missing, was found later in a sack.

The evidence against Yoder and Curtis was purely circumstantial. They were convicted, but the fact that the evidence was not conclusive probably got them a life sentence instead of one of death.

Mrs. Yoder knew that her husband was at his home the night the murder was committed. She so testified in court, but her testimony naturally was regarded as biased. Left with four small children to support after her husband was taken to the penitentiary, Mrs. Yoder did not give up hope. All the time and what little money she could spare she devoted to an effort to find Eick. Neither she nor her husband believed Eick was dead.

But try as she might, Mrs. Yoder could get no trace of the supposedly dead man. Eighteen months ago friends of the two convicts convinced the governor that the evidence against the two did not warrant their conviction, and Yoder and Curtis were pardoned.

The restoration of his freedom did not satisfy Yoder, however. He was bent on proving his innocence in which his wife had had such faith. He took up the search his wife had conducted so long and so fruitlessly. At first it appeared that he, too, was doomed to disappointment. But some time ago a woman came here from Paris, Tex., and heard of Yoder's search. She said she had known an A. J. Eick in Texas who might be the man sought.

The Texas man was communicated with and has proved to be the one. It was the first he had known that he was supposed to have been murdered and two men had been sent to the penitentiary for the crime. Yoder has received a picture of Eick and the latter is coming here to establish his identity and prove Yoder and Curtis innocent of the crime for which they spent eight years behind the bars.

## COMMERCIAL CLUBS TO MEET

FIRST CONVENTION TO BE INTERESTING EVENT.

Federation Movement Has Spread to All Parts of State—Organization to Boost all Missouri.

Jefferson City, Nov. 6.—The first convention of the Missouri Federation of commercial clubs since its organization last June will be held here November 21 and 22. It promises to be one of the most interesting events of its kind ever held in the state.

The federation was formed at Hannibal through a call sent out by the Commercial club of that city and the movement has rapidly spread to all parts of the state. The Commercial clubs of Southwest Missouri have organized under its auspices and those of Northeast Missouri also have banded together. A similar group has been formed by the commercial organizations of central Missouri.

The intention is to organize Northwest and Southeast Missouri, so that the state will be divided into five groups. The clubs of each town and city will be members of their respective groups and also of the state federation—thus forming an organization that will promote the whole state as well as enable the different sections to get closer together.

The program of speakers will include several presidents of railroads, bankers, business men, prominent educators and others who are at the head of the largest interests in the state.

One interesting phase of the convention will be a meeting of the county courts and the county highway engineers of Missouri, and an effort will be made to give the present movement for better public highways a statewide scope and to organize it from a county standpoint.

## GRAND JURY INDICTED FIFTY

Twelve Teetotalers in Local Option County Make Things Lively for Jointists.

Kirksville, Mo., Nov. 6.—What a grand jury composed of 12 teetotalers will do in a local option county was demonstrated in Kirksville when a list of indictments returned by the grand jury of the present term of circuit court was made public. All told 53 true bills were found and all but three of these alleged violations of the local option laws. One indictment charged a witness with perjury. An ex-saloon keeper in Kirksville, who is now conducting a drug store, is named in 14 indictments. Most of the other indictments are distributed among the mining towns in the western part of Adair county. Not only do the men who formed the grand jury abstain from liquor, but only two of the dozen use tobacco.

Mrs. Bornfeld, a widow, keeps a restaurant. She told the police she believed her daughter had been kidnaped by someone in the cafe who saw her give the money to her daughter and that she is being held by her captors for fear of detection.

The girl has not been seen by her mother since she left the restaurant to go to their house.

### SAYS IT WILL BE ABANDONED.

According to St. Joseph Paper No Saints Highway North of Maryville.

The St. Joseph News-Press, in its automobile notes in Saturday's issue, says:

"The Saints Highway, which has not been promoted to any extent north of Maryville, although it is excellently marked that far, probably will be abandoned and the route as far as Maryville made part of a St. Joseph-Omaha trail."

Members of the Saints Highway organization in Nodaway county denied Monday that the highway is to be abandoned, and say that the trail is much better in Iowa than it is in Missouri, because they have been organized longer and have worked the road. Maryville will be glad to be on the St. Joseph-Omaha trail, and efforts will be made to have the highway come this way.

## LIKE NAMING BABY

SUITABLE APPELLATIONS FOR  
FARMS HARD TO AGREE UPON.

## EIGHTEEN ARE REGISTERED

Upon Payment of Fee of \$1.00 Law  
Permits Name to Be Recorded  
by the County Clerk.

Only a few farm owners in Nodaway county have named their farms since the legislature passed a law in 1907 whereby any farm owner might name his farm and have the name registered at the office of the county clerk upon payment of a \$1 fee. The only restriction regarding the name, according to this law, is that it must be different from any other name of a farm in the same county, provided that name has been registered.

Next to naming babies the hardest thing to do some farmers say, is to name a farm. What the husband likes the wife does not, and vice versa. Apparently that condition exists in Nodaway county.

Up to the present there are only eighteen farm owners who have named their farms, the names being registered at the county clerk's office. Of this number six were recorded in 1907, seven in 1908, three in 1909 and two in 1911. During 1910 no farms were named.

The farms that have been named and are recorded at the county clerk's office are:

The Pines, owned by C. H. Eaton; Hill Top Farm and Liberty Farm, by A. R. Hills; Glen Coe, by James L. Hepburn; Pine Hurst, by E. H. Payne; Riverside, by F. D. Miller; Hill Crest, by Maranda Miller; Forest View Stock Farm, by Willard Ingram; Clover Hill, by Oliver P. Bogart; Springdale Stock Farm, by L. D. Bosley; Burr Oak, by John G. Hays; Ash Wood Farm, by A. E. McMaster; Edgewood Stock Farm, by E. S. Sewell; Prairie View Stock Farm, by C. E. Graham; Fair View Farm, by J. E. Anderson; Valley View Farm, by Adolph Lippman; Ridge View Farm, by Henry N. Moore; and Willow Brook Stock Farm, by J. O. Thompson.

The will was written on February 14, 1896, and was witnessed by S. R. Beech and Reuben Brown. By the terms of the will the following children will receive these bequests: Henry Haegen, \$2,500; Mary Sturm, \$2,500; Peter Haegen, \$3,500; Frank Haegen, \$3,500; Anna Honey, \$3,500; Josephine Gross, \$3,500; John F. Haegen, \$4,000; Louisa Haegen, \$4,000; Kate Haegen, \$5,000. All of the rest of the personal property, goods, chattels and effects and real estate is to be divided equally, share and share alike between the children. John F. Haegen was named as executor of the estate.

### RASCO BRIEF SENT OFF.

Will Be Printed at Jefferson City by  
the State and Will Be Ready Soon.

Prosecuting Attorney George Pat Wright sent to Jefferson City Monday to Attorney General Major the brief in the Rasco case. It will be printed in book form at Jefferson City by the state and will be given to the attorneys for Rasco fifteen days before the case comes up before the supreme court. The brief for the defense in the Rasco case will have to be served or given to the attorneys for the state at least a month before the case comes up. Attorney Ellis Cook for the defense in the case said Monday that their brief would be given to the state December 1.

The abstract of record in the case was served on the attorneys for the defense Monday by Prosecutor Wright.

The Rasco case is set before the supreme court in the early part of January. It will probably be a few months after that before a decision is given by the court.

### Surprised Judge Conn.

Judge W. H. Conn was surprised in a splendid manner at his home Saturday evening, when a company of his friends gathered to spend the evening in celebration of his birthday anniversary. The affair was planned and successfully carried out by Mr. and Mrs. J. L. Hunt and their daughter, Miss Mabel Hunt, and Judge Conn was as completely surprised as the company wished him to be. The evening was spent in games and music and refreshments were served at a late hour. Those present were Mr. and Mrs. Mitchell Ray, Mr. and Mrs. R. E. Thomas, Mr. and Mrs. James Craig, Mr. and Mrs. Caleb Brogan, Mr. and Mrs. Henry Aley, Mr. and Mrs. John Coleman, Mr. and Mrs. Rufus Allen, Mr. and Mrs. Ward Beedle, Mr. and Mrs. A. C. ### Gave Her First Tea Party.

Little Miss Louise Peery, daughter of Mr. and Mrs. M. A. Peery, celebrated her sixth birthday anniversary last Saturday afternoon at the home of her parents in West Terrace Place, by giving a tea party to her little friends. Her most intimate friend and playmate, Master Forrest Smith, received the guests at the door, and directed them upstairs, where they were met by Alice Peery, the sister of the little hostess. After returning to the parlors several songs were given by Alice and Louise Peery, with piano accompaniment by Miss Gretchen Cranor of Albany. All the guests were then conducted to a large room upstairs, where a cobweb was formed for them. At the end of each string in the web a doll was found by each girl and a savings bank was found by each boy. Games followed. A three-course luncheon was served in the dining room by Mrs. Peery, assisted by Mrs. Wilbur C. Smith, Miss Cranor and Miss Alice Peery. Small candles lighted the table and the birthday cake. ## FAVOR CONSOLIDATION

County Supervision and Combined  
Schools Make For Efficiency and  
General Welfare of Children.

The following are the resolutions adopted Saturday afternoon by the Nodaway county teachers, in session last Thursday, Friday and Saturday, in this city:

The teachers of Nodaway county, in association assembled would express their appreciation for the many courtesies extended to them while in Maryville, and their convictions on important educational questions in the following resolutions:

We are deeply grateful to the Fifth District Normal school and to the Maryville public schools for the use of their commodious new buildings; to the people of Maryville for their generous entertainment, and to the people of Nodaway county in general for their kindly interest and active co-operation in every effort for the good of our schools; to the boys and girls of the county who so enthusiastically entered into the various contests, and who thus furnished to us both entertainment and instruction; and to every one who assisted in carrying into effect the excellent program prepared by our superintendent.

We re-affirm our belief in county supervision as the most effective way to bring our schools up to their highest efficiency, and we point, as justification of our belief, to the good work now being carried on throughout the county.

We recognize in Mr. W. M. Oakerson a zealous and wise director of our educational forces.

We favor consolidation of rural schools as defined by the laws of the state. We believe by this means that better classification, better gradation, better instruction, and better supervision can be had. We further believe that more suitable school buildings, a most extended course of study, larger and better selected libraries, and vastly increased facilities in general will result from this consolidation. We urge the friends of education throughout the county to unite with us for the accomplishment of this desired result.

### A Correction.

The Democrat-Forum was mistaken Friday in its statement that Miss Cleo Kime of Hopkins had twice won first place in a declamatory contest in the high school auditorium in Maryville.

Miss Kime won third place two years ago in the inter-high school oratorical contest that is held each year in our city in connection with the track meet and other athletic events at the Northwest Normal. She was given second place in the contest, however, because the winner of second place was afterward found to have gone over time in giving her declaration.

And another mistake made was that this is the second county school declamatory contest, when it is the third county school contest. Burlington Junction stood first in the first contest, Pickering in the second and Hopkins in the third.

J. A. Cummins of Ford City, Mo., spent Sunday in Maryville the guest of his brothers, Dr. K. C. T. A. and J. P. Cummins, and his sister, Mrs. T. W. Costello, and their families.

Miss Phil Romasser spent Sunday in Maryville with her parents, Mr. and Mrs. Louis Romasser, returning to Kansas City Monday morning.

Miss Edith Coler of Barnard visited her sisters, Misses Eunice and Carrie Coler, State Normal students, during the educational meeting.

Mr. and Mrs. Charles Wadley went to St. Joseph Saturday evening to visit Mrs. Wadley's brother, Judd Harrison, and family a few days.

Misses Belle, Leota and Margaret Collins of Arkoe were in Maryville Saturday.

#### "CHAMP CLARK'S BLUNDER."

St. Louis Republic, Long Sponsor for  
Speaker, Attacks His Stand  
for Annexation.

St. Louis, Nov. 6.—Under the caption, "Champ Clark's Blunder," the Republic, which has always championed Clark, in an editorial today says:

"It must be that Champ Clark's presidential ambitions are lightly held or he would not persist in his advocacy of the annexation of Canada.

"These do not appear to have been hasty or thoughtless remarks. They were vehement as well as boastful. They separate him in a way from the great achievements of his party at the extra session. They raise a new and an alarming issue and his nomination for the presidency would instantly make it acute and dangerous. He says he could carry every state on that proposition. He could not carry Missouri as the advocate of such a program.

"If it were possible to commit a great party or a section of a great party to the idea of annexing Canada the movement would be regarded not only in the Dominion, but throughout the British empire, as contemplating war. One nation does not annex another except by force of arms.

"There is no possibility of the Democratic party accepting a platform of this kind. We deplore it even more keenly because, owing to his exalted position in the party and in the government, it cannot fail to be used to the disadvantage of Democrats everywhere."

#### Normal Lecture Course.

The second number of the Normal lyceum lecture course will be given next Wednesday night, Nov. 8. Dr. James Headley will give his lecture, "In Friendship's Name." Dr. Headley is one of the most entertaining speakers on the lyceum platform, and his lecture here should be heard by a large audience. Tickets, single admission, 35c; season ticket to remaining numbers, 85c. The tickets to this course should be sold ordinarily for a higher price, but the object is to furnish to the students and others interested a first class course of entertainments at lowest possible price. Come out and hear this lecture.

### Good, Better, Best.

I have in mind the three best places in Nodaway county to prospect for oil. The first best, in my judgment, is the Albert Carr farm. Many years ago when I owned the farm I went to where Carr now speaks of, on the middle eighty acres, and greased my shoes. The second is on the east end of the Fred P. Robinson farm. The third, near the old Morehouse farm, north of Barnard. I have gone out many times, all alone, to prospect, and the above three places were well fixed, in my mind. I have not yet met Mr. Wallace, the oil man, but I am glad he is here and getting so many interested. Now, you good people of Nodaway county, I don't want you to imagine that I am paid for this. I am not. Neither of the parties know anything about this writing.

Yours truly,

A. C. GANN.

The catalogues for the show with the premiums will be printed soon. Maryville has had some good poultry shows, but the one this year promises to excel them all.

### ATTRACTIVE EXHIBITS.

Three at the Teachers' Meeting Were of Unusual Attraction.

Three exhibits made by the schools of the county at the educational meeting held at the Normal Thursday, Friday and Saturday were of unusual attraction to those who visited the meeting.

One was a log cabin, fashioned from thirty-six varieties of wood by the pupils of Swinford school, taught by Dwight Swinford. The wood was secured from the woods in the neighborhood of the school house.

Another was a corn cabin, made to represent a log cabin, that was the work of the pupils of North Prairie school, taught by Miss Anna Cabeen. The corn was placed over a wooden frame in the shape of logs.

The third exhibit was a duplicate of the high school building at Pickering, made by the manual training pupils of that school. Each was a work of art and a credit to those whose work it was.

### USED "WHITE PEPPER" ON EGGS

City Chemist Finds Condiment Mixed  
With Arsenic—Guards Doubled  
and Everything Is Very  
Closely Examined.

Chicago, Nov. 6.—The cunning attempt of Mrs. Louise Vermilya to take her own life by seasoning her food with arsenic probably has been frustrated. Physicians attending the woman who is accused of causing the death of Arthur Bissonette, a police officer, by poison and who is under investigation for the deaths of eight other persons, said they believed she will recover. Under the eyes of the police sent to her home to guard her, she has been slowly poisoning herself. When eggs were served her she complained she did not like black pepper and asked that a box of white pepper be brought her from a shelf in the pantry.

The nurse, by the odor of the light colored substance in the box, determined it was pepper and allowed Mrs. Vermilya to have some of it. Soon Mrs. Vermilya became very ill.

The "pepper" was taken to a druggist and he told the police he believed the condiment was mixed with an arsenical rat poison. The remainder of the compound was sent to a city chemist, who confirmed the report of the druggist.

A guard of detectives and uniformed policemen with a police matron and several trained nurses are watching over Mrs. Vermilya night and day. The watchers relieve each other as intervals to prevent fatigue, causing a lapse of vigilance. The bed and bedding, her sleeping garments and her hair have been examined for concealed poison.

Captain Harding, after questioning Mrs. Vermilya, said:

"Mrs. Vermilya talked freely. She said she had bought some roach powder and had put it in a talcum powder box. She said she had three talcum boxes in her pantry. In one was black pepper, in another white pepper and in the third the roach powder. We have been able to find only two such boxes.

"I told her the chemists had found arsenic in the box and not roach powder, but she could not account for this. I attach no importance to her denials and am satisfied there were but two boxes in the house, one containing arsenic."

Portions of the body of the conductor, Richard T. Smith, who died at Mrs. Vermilya's home last March, have just reached here from North Henderson, Ill., where they were exhumed, by Dr. E. H. LeCount. He will examine them for traces of arsenic.

## GERMANY OFFENDS DENMARK

FLEET MANEUVERS IN DANISH  
WATERS CAUSE DAMAGE.

Germans Charged With Obtaining too  
Much Information—English  
Authorities Watching.

Copenhagen, Nov. 6.—Public irritation in Denmark and Norway continues to grow over the maneuvers of the German fleet in Scandinavian waters.

This feeling has been increased rather than allayed by the publication of government inspired articles explaining the maneuvers in the Danish Berlingske Tidende and the Norwegian Morgenbladet.

The people refuse to accept the assurance that the Baltic Belts are used only as the natural through passage for the German warships.

The visits of the German fleets have been made frequently without the formality of notifying Denmark and Norway.

Exercises have taken place in all Danish waters and at night they have been held without shaded lanterns or without any lights. This has resulted in considerable damage and the compensation paid has not proven adequate.

This constant turmoil in Danish waters has excited much adverse comment from the public and it firmly believes that the exercises are being held in preparation for actual war. It is charged that the Germans have obtained as much information in regard to Danish waters as is possessed by the naval department of Denmark.

English authorities are maintaining the closest scrutiny over the movements of German naval vessels in Scandinavian waters and it is said that all of the British consulates have received instructions to report promptly the arrival and movements of all German warships.

### TO RESIST AMERICANS' CLAIMS

Mexico Will Pay But Little for Property  
Losses Incurred During  
Recent Disturbance.

Washington, Nov. 6.—Americans who suffered property loss at the hands of the Mexican revolutionists in the recent disturbance in the country have very little chance of receiving damages, according to the view of legal experts who point out the questions of international law involved.

It is regarded as practically certain that Mexico will, when claims are presented for action, raise as a bar to Americans the ruling laid down by United States courts of claims, following both the civil war and the Spanish-American war.

This point is to the effect that a parent government is not liable for the acts of insurrectionists toward foreigners or their property, after the date upon which the insurrection has passed beyond the control of that government. By making this ruling United States courts at once disqualified the great majority of civil war and Spanish war claims. Since it is a ruling behind which the United States has sought shelter, it is not believed American claimants readily will find an answer to it.

Mrs. T. D. Kelley of Tarkio, who has been the guest of her daughter, Mrs. Eugene Rathbun, left Monday morning for visits at St. Joseph and Maysville before returning home.

Miss Maggie Broyles, living west of Maryville, went to Hopkins Saturday to visit the family of G. B. Ulmer and other relatives.

Cecil Go'orth of Bolekow was a guest over Sunday at the home of his brother, W. E. Go'orth, and family.

## DON'T PULL OUT THE GRAY HAIRS

A Few Applications of a Simple Remedy Will Bring Back the Natural Color.

"Pull out one gray hair and a dozen will take its place" is an old saying, which is, to a great extent, true, if no steps are taken to stop the cause. When gray hairs appear it is a sign that nature needs assistance. It is nature's call for help. Gray hair, dull, lifeless hair, or hair that is falling out, is not necessarily a sign of advancing age, for there are thousands of elderly people with perfect heads of hair without a single streak of gray.

When gray hairs come, or when the hair seems to be lifeless or dead, some good, reliable hair restoring treatment should be resorted to at once. Specialists say that one of the best preparations to use is the old-fashioned "sage tea" which our grandparents used. The best preparation of this kind is Wyeth's Sage and Sulphur Hair Remedy, a preparation of domestic sage and sulphur, scientifically compounded with later discovered hair tonics and stimulants, the whole mixture being carefully balanced and tested by experts.

Wyeth's Sage and Sulphur is clean and wholesome and perfectly harmless. It refreshes dry, parched hair, removes dandruff and gradually restores faded or gray hair to its natural color.

Don't delay another minute. Start using Wyeth's Sage and Sulphur at once and see what a difference a few days' treatment will make in your hair.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special agents, Koch Pharmacy.

## TAPPING LAKE OF GENEVA

Project by Which Water May Be Brought to Paris by 300-Mile Canal.

New York is not the only great city that is troubled by the problem of a water supply. Paris has so nearly reached the limit of its convenient supply that it has revived the project of drawing upon the water of Lake Geneva.

This lake is in Switzerland, in the minds of most persons, but most of the southern shore is French territory, and although the control of the level by the barrage at Geneva is Switzerland's by treaty, still France claims it has rights that would allow it to lower the level by four inches during the dry season, which is all that is contemplated under the present plan.

The proposed canal would be over three hundred miles long, including many tunnels and the crossing of four large rivers, and would cost about \$100,000,000. It has not advanced beyond the stage of discussion, but the need of Paris is so pressing that it may yet be realized.

## RUN DOWN AN ARMADILLO

Animal Killed by Dogs in Virginia Proves to Be Soldier's Pet.

While hunting in the Virginia woods, near Bailey's crossroads, in Alexandria county, a few nights ago, a pack of dogs belonging to John Monroe and a colored man named Mortimer Wiggins ran down and killed an animal believed to be an armadillo.

The dogs were after opossums and coons, but getting on the scent of the animal, followed it for an hour or more before they landed their quarry.

Later it was learned that the armadillo belonged to one of the troops of cavalry at Fort Myer. The men had secured a number of the animals while on duty on the Texas border and had brought them to the fort.

The one that was killed had escaped and the men had been hunting the woods for it for several days, when they learned that it had been killed. This is possibly the only armadillo hunt that ever took place in the vicinity of Washington.

## Protecting Wild Animals.

An important amendment to the game laws which goes into effect this year is that prohibiting the sale of game at any time. While this will have no effect on the average hunter, it will put an end to a practice which has had much to do with decreasing the supply of wild animals and birds in this state. The slaughter of game in order to supply the markets has in the past done much to aid in the extinction of our wild animals and birds, and the elimination of this type of hunter will be most beneficial.

Each year the game laws are being more strictly enforced, and the protectors have obtained a large number of convictions. The officials are no longer ready to overlook violations of the law, but are making every effort to put a stop to illegal hunting. And in this work they have the moral support of all good citizens of the state.—Schenectady Gazette.

## Houseboats to Let.

The cult of the houseboat has never made much progress in this country, for a number of reasons, the chief of which is perhaps the liking of Americans for speed. Besides, we are a gregarious people, and hotels with their crowds attract most of those who have not the time or money for elaborate country places.

But in England and Germany these quiet summer floating houses are increasing in popularity, and a Berlin company has this year gone into the business on a large scale of building houseboats to let.

They are built on one pattern, the main feature of them being a roof veranda, to serve as dining and living room. Perhaps we may some time appreciate their advantages, and our rivers may present as attractive an appearance as does the Thames.

## Woman University Professor.

The first lady university professor in Germany has just been created in the person of Mile. Gertrude Jeanne Wockler, Ph. D. of Berne university, who has been appointed assistant professor of physics at Leipzig university. It is true that a year ago Countess von der Linden, privat docent at Bonn university, also received the title of professor, but the Prussian authorities opposed her nomination to the chair of assistant professor of zoology. Mile. Wockler, who has been more successful, is a Swiss, thirty-three years of age, and will be the youngest professor in the only Saxon university. She has for several years taken a very active part in the feminine emancipation movement.

D. C. McKee and Lawrence Skidmore of Guilford were in Maryville Monday.

## Changed Her Mind.

A young couple had been courting for several years and the young man seemed to be in no hurry to marry. Finally, one day, he said: "Sal, I canna marry thee." "How's that?" asked she. "I've changed my mind," said he. "Well, I'll tell thee what we'll do," said she. "If folks know that it's thee as has given me up I shanna be able to get another chap; but if they thing I've given thee up I can get all I want. So we'll have banns published and when the wedding day comes the parson will say to thee, 'Wilt thou have this woman for thy wedded wife?' and thou must say, 'I will.' And when he says to me, 'Wilt thou have this man to be thy wedded husband?' I shall say, 'I winna'." The day came, and when the minister asked the important question the man answered, "I will."

Then the parson said to the woman: "Wilt thou have this man to be thy wedded husband?" and she said: "I will."

"Why," said the young man furiously, "you said you would say 'I winna'." "I know that," said the young woman, "but I've changed my mind since."—National Monthly.

## A Nautical Christening.

Some years ago a slow sailing vessel, when some 600 miles from Liverpool, picked up a lusty youngster of five years lashed to a mast.

The captain took a great liking to him, called him his son and decided that the little chap must be christened—one of the few things which he knew must be attended to in the case of children.

Of course there was no chaplain aboard, so the captain himself undertook the ceremony. He gathered the men about him, and with a mixed knowledge of his duties, he glared about him and asked whether any one knew just cause why the boy should not be christened.

"If there is," he roared, "speak up like a man or forever hold your tongue."

Then he suddenly cracked a bottle of wine over his head and christened him.

The ocean waif is now settled down—a steady longshoreman, but he still relates with satisfaction the story of his christening.

Mrs. Anna Andrews and Miss Fannie Andrews went to St. Joseph Saturday evening to visit friends a few days.

Dale V. Alderman of St. Joseph spent Sunday in Maryville with his parents, Judge and Mrs. I. K. Alderman.

## SOLVES AN OLD MURDER MYSTERY

Wife's Devotion Helps Locate Man Supposed to Be Dead.

### HER HUSBAND PROVEN INNOCENT

After Serving Eight Years for Crime is Pardoned and Joins Search for Alleged Victim.

Oklahoma City, Ok., Nov. 6.—Eleven years of searching, in which time Mrs. William M. Yoder never for a moment believed her husband guilty of the brutal murder for which he was condemned to life imprisonment, has just been ended by the finding of A. J. Eick, the man supposed to have been murdered.

Yoder and Thomas Curtis were convicted in 1901 of having murdered Eick the previous year and thrown his body in the Canadian river. A horribly mutilated body identified as that of Eick was found wrapped up in an old carpet. The head, which was missing, was found later in a sack.

The evidence against Yoder and Curtis was purely circumstantial. They were convicted, but the fact that the evidence was not conclusive probably got them a life sentence instead of one of death.

Mrs. Yoder knew that her husband was at his home the night the murder was committed. She so testified in court, but her testimony naturally was regarded as biased. Left with four small children to support after her husband was taken to the penitentiary, Mrs. Yoder did not give up hope. All the time and what little money she could spare she devoted to an effort to find Eick. Neither she nor her husband believed Eick was dead.

But try as she might, Mrs. Yoder could get no trace of the supposedly dead man. Eighteen months ago friends of the two convicts convinced the governor that the evidence against the two did not warrant their conviction, and Yoder and Curtis were pardoned.

The restoration of his freedom did not satisfy Yoder, however. He was bent on proving his innocence in which his wife had had such faith. He took up the search his wife had conducted so long and so fruitlessly. At first it appeared that he, too, was doomed to disappointment. But some time ago a woman came here from Paris, Tex., and heard of Yoder's search. She said she had known an A. J. Eick in Texas who might be the man sought.

The Texas man was communicated with and has proved to be the one. It was the first he had known that he was supposed to have been murdered and two men had been sent to the penitentiary for the crime. Yoder has received a picture of Eick and the latter is coming here to establish his identity and prove Yoder and Curtis innocent of the crime for which they spent eight years behind the bars.

### COMMERCIAL CLUBS TO MEET

FIRST CONVENTION TO BE INTERESTING EVENT.

Federation Movement Has Spread to All Parts of State—Organization to Boost all Missouri.

Jefferson City, Nov. 6.—The first convention of the Missouri Federation of commercial clubs since its organization last June will be held here November 21 and 22. It promises to be one of the most interesting events of its kind ever held in the state.

The federation was formed at Hannibal through a call sent out by the Commercial club of that city and the movement has rapidly spread to all parts of the state. The Commercial clubs of Southwest Missouri have organized under its auspices and those of Northeast Missouri also have banded together. A similar group has been formed by the commercial organizations of central Missouri.

The intention is to organize Northwest and Southeast Missouri, so that the state will be divided into five groups. The clubs of each town and city will be members of their respective groups and also of the state federation—thus forming an organization that will promote the whole state as well as enable the different sections to get closer together.

The program of speakers will include several presidents of railroads, bankers, business men, prominent educators and others who are at the head of the largest interests in the state.

One interesting phase of the convention will be a meeting of the county courts and the county highway engineers of Missouri, and an effort will be made to give the present movement for better public highways a statewide scope and to organize it from a county standpoint.

### GRAND JURY INDICTED FIFTY

Twelve Teetotalers in Local Option County Make Things Lively for Jointists.

Kirkville, Mo., Nov. 6.—What a grand jury composed of 12 teetotalers will do in a local option county was demonstrated in Kirkville when a list of indictments returned by the grand jury of the present term of circuit court was made public. All told 53 true bills were found and all but three of these alleged violations of the local option laws. One indictment charged a witness with perjury. An ex-saloon keeper in Kirkville, who is now conducting a drug store, is named in 14 indictments. Most of the other indictments are distributed among the mining towns in the western part of Adair county. Not only do the men who formed the grand jury abstain from liquor, but only two of the dozen use tobacco.

Mrs. Bornfeld, a widow, keeps a restaurant. She told the police she believed her daughter had been kidnaped by someone in the cafe who saw her give the money to her daughter and that she is being held by her captors for fear of detection.

The girl has not been seen by her mother since she left the restaurant to go to their house.

The party ate a wedding dinner at Willow Springs. There the bride and groom bade their friends goodbye and continued their honeymoon.
